Muhammad Safian

Mern Stack Developer

+923114545210 ◇ meharsafian62@gmail.com ◇ Lahore, Punjab, Pakistan ◇ GitHub ◇ LinkedIn

SUMMARY

MERN Stack Developer having experience in high performance web and mobile applications. Skilled in **Next.js, React Native, Node.js, and MongoDB,** with expertise in **real-time systems, authentication, and payment integrations**. Passionate about creating user centric, reliable, and efficient digital solutions that deliver measurable impact.

EXPERIENCE

MERN Stack developer   Dec '24 — Present
DEVNEXUS   Lahore, Pakistan (Remote)
- Work on **women's health platform** (Omooma) supporting pregnancy, ovulation, and period tracking empowering users with accurate, data-driven predictions and personalized guidance.
- Built an intuitive, **responsive**, and accessible UI using **Tailwind CSS** and **shadcn/ui**, ensuring seamless user experience across devices.
- Integrate cross-domain **authentication** APIs **using cookies** and **local storage** to enable secure user sessions across microservices (tracking, courses, and auth).

PROJECTS

Multi-Vendor E-Commerce Platform Link
- Developed a scalable **MERN stack e-commerce** platform supporting multi-vendor functionality with separate **user, seller, and admin dashboards** enabling smooth product exploration, purchase, and management experiences.
- Implement secure **authentication** and **authorization** using **JWT**, refresh tokens, and **session management**, along with **Stripe** and **PayPal payment integration** for seamless checkout and order booking flows
- Built separate microservice for real-time chat using **Socket.IO**, optimize performance with **pagination**.

Learning Management System (LMS) Link
- Built a **LMS** platform using **Next.js, TypeScript,** and **Tailwind CSS** with a smooth course exploration and booking experience via **Stripe**.
- Implement **authentication**, session management, and **caching** with **JWT**, **refresh tokens**, and **Redis**, ensuring fast and secure user interactions.
- Integrate real-time notifications and messaging using **Socket.IO,** with an **admin CMS** and analytics dashboard for managing **courses**, users, and orders efficiently

SKILLS

Frontend   Html5, css3, JavaScript, TypeScript, React.js, next.js, Redux, RTK, shadcn/ui
Backend   Node.js, Express.js, JWT, OAuth, Authentication, Authorization
Tools & Deployment   MongoDB, Redis, vercel, Github
Other   Stripe, Socket.io

EDUCATION

BS Computer Science, Virtual University of Pakistan (2nd Semester)   Present
